

8-Jan-2021\_greased and get going hearing from Heaven

(Vision: ) A clear gel type of paste or grease was being lathered on some parts of the workings of my heart and mind; some pipes and pistons, different parts to some machine of my soul.

(Spirit helper speaking: ) I grease you up so you can perform your Master's will faster. How humble is that? My work is to make your work get done. Who gets the credit? Jesus. That's all we cheer for. We want His team to win—which means we all win; all get into power, so to speak; we are the winning party. But we each have to do our little, our sometimes very little part. And you do too.

Why am I getting your cogs and wheels and moving parts working quickly? Because there is a long line up of souls waiting to speak, and time before the shop shuts is getting nearer. Before too long the doors will shut, and what is done is done. Shut up shop time, and time for accounting.

So who wants to speak? Go through your list of personal aides; keep asking for messages from those who have been revealed. Then go through the list of other helpers and see if any of them have something to say. It won't be long now till the bell toll comes.

Gird up and keep going.
